(54) WATER PERMEABLE ARTIFICIAL LAWN AND MANUFACTURE THEREOF

(57)Abstract:

PURPOSE: To provide a transparent artificial lawn with a suitable cushion property and without causing steps and undulations on its surface.

CONSTITUTION: The artificial lawn is made of a water permeable base material 12 where resilient chips 16 are placed to partially contact with one another and thus formed non-contacted parts construct communicated gaps 18 and the chips 16 are put themselves into a plate-like combination with an adhesive agent on the surface of the chips, and a transparent lawn-shaped surface material 14 that is stuck to one surface of the base material 12.
